Overview

With each software release, we work to improve the Contractor Performance Assessment Reporting System (CPARS), the Past Performance Information Retrieval System (PPIRS), and the Federal Awardee Performance and Integrity Information System (FAPIIS) user experience and improve the quality of information available from CPARS/PPIRS. We do this through a combination of minor enhancements and fixing known issues. This document summarizes the customer-facing changes that were made to the CPARS/PPIRS application in version 6.0.5. on November 11, 2018.
