Overview

With each software release, we work to improve the Contractor Performance Assessment Reporting System (CPARS) and Federal Awardee Performance and Integrity Information System (FAPIIS) user experience and improve the quality of information available from CPARS and FAPIIS. We do this through a combination of minor enhancements and fixing known issues. This document summarizes the customer-facing changes that were made to the CPARS Website and the CPARS/FAPIIS application in version 6.3.5 on February 28, 2021.

Release Notes

Description	Reference IDs
Enhancements	
Corrected the error, preventing agencies with more than 1,000 Contracting Office IDs from applying the "Add All" option to the Auto Register report and the Auto Initiate an option on the FAPIIS Record.	CSR-200006
Modified the Transfer Focal Point process, which prevented APOCs/DPOCs from completing a complete transfer and delete when the Focal Point also maintained FAPIIS Data Entry access.	CSR-200190
Corrected the sort order for the View Existing User Access report.	CSR-210043
Corrected the character counter within the Schedule Rating narrative - all characters are now counted.	CSR-210109
Enabled more than one variable declaration in the JSON SQL statement.	CSR-210116
Corrected the validations with auto save, in the Evaluation Workflow process when users switch between tabs.	CSR-210121
Updated the Help Desk email templates.	CSR-210122/ CSR-210183
Enabled queried object parameters to be variables.	CSR-210124

Description	Reference IDs
Enhancements	
Modified CPARS narrative fields, when users copy and paste from a Word document that has auto correct options replacing smart quotes with characters.	CSR-210126
Enabled global parameters to be cloned and reused.	CSR-210132
Allowed instantiation of an object, which has a variable that is also an object and an unresolved variable itself.	CSR-210135
Corrected an error, in which there was a green checkmark showing even though mandatory fields were missing.	CSR-210152
Corrected the Transfer Focal Point view when an Administrative Agreement exists for the Focal Point. The "Administrative Agreement" replaced the blank document number.	CSR-210159
Corrected the Processing Times Report allowing users to sort by Focal Point.	CSR-210161
Corrected an error with the Evaluation/Contract Status Report which, occasionally occurred when data options were limited.	CSR-210171
Modified single row functions to return one row.	CSR-210180
Propagated the original exception in the database functions.	CSR-210187
Updated the GetDataRow, to check for empty arrays before returning the first element in the GetDataRow.	CSR-210197
