Overview

With each software release, we work to improve the Contractor Performance Assessment Reporting System (CPARS) and Federal Awardee Performance and Integrity Information System (FAPIIS) user experience and improve the quality of information available from CPARS and FAPIIS. We do this through a combination of minor enhancements and fixing known issues. This document summarizes the customer-facing changes that were made to the CPARS Website and the CPARS/FAPIIS application in version 6.4.0 on July 25, 2021.

Release Notes

Description	Reference IDs
Enhancements	
Added the ability to log notes when having to lock/unlock user accounts that are impacting system security.	CSR-200003
IAEENH927: Archive all Legacy Records in View Performance.	CSR-200261
IAEENH927: Change all past performance functions to use a view generated from the CPARS evaluation tables.	CSR-200262
Enhanced the system to prevent multiple versions of CPARS from running simultaneously and will no longer impact users from processing evaluations.	CSR-210028
Added the ability to prevent contracts from archiving when vendor is in a litigation hold.	CSR-210102
The current www.fapiis.gov website, for public facing FAPIIS records has been rebuilt in the Angular environment. This website will use tools available in the Angular library to create an easy to understand and more modern user experience for the user.	CSR-210178
IAEENH869: Added new functionality for APOC/DPOCs, to easily transfer one Contract/Document Number at a time.	CSR-210185
IAEENH848: Consolidate all count-based reports into the Dashboard.	CSR-210203
This CSR ensures that the data reports are working correctly in the Angular environment and match the data that is currently in www.fapiis.gov.	CSR-210225

Description	Reference IDs
Enhancements	
This CSR is to ensure the functionality within the new Angular environment is functioning as intended.	CSR-210226
Add the ability to enter email addresses to send the automated report scheduler reports to additional points of contact.	CSR-210244
Remove the search string field under Assessment Reports, Advanced option.	CSR-210255
Discontinued the Status Report Web Service due to converting to APIs.	CSR-210294
Remove the reference to ALL mention of the date April 15, 2011. This occurs in www.fapiis.gov in the DESCRIPTION/USAGE section and is no longer relevant due to it being more than 10 years old.	CSR-210301
